Margay / DAP Kid Kart

Complete Turn-Key race kart for KidKart and Speedster Class

- Mechanical brakes
- 25mm Axle
- Aluminum Wheels
- Bridgestone "C" tires
- Suede Steering Wheel

Don't let this kart's age fool you, this chassis has less than one season's worth of racing on it! The Margay/DAP is considered to be one of the better handling KidKart chassis available.

Our mechanics recently removed it from storage and gave the kart a thorough checkup to make sure it was ready to hit the track!
