## Minnesota's Premier Indoor Karting Venue

ProKART Burnsville is designed to entertain! Our 45,000 square foot facility features a multi-configurable track stretching to nearly a quarter of a mile long. An observation deck above the track allows racers and spectators alike to get a birds-eye view on the action. Television monitors around the facility stream live race statistics and lap times, allowing everybody to follow the race from wherever they see fit.

ProKART has designed many different packages and racing options in order to provide the most entertaining event for your group. Fully customizable events are also available for larger groups requiring something extra-special for your guests.

Full catering, personalized trophies, meeting rooms and commemorative race shirts are just some of the additional things we offer to help make your event one to remember. We pride ourselves on being able to provide our clients with the most complete event planning possible.

## Unforgettable Events

Karting is the most fun and unique party, group, or corporate event. It's structured to ensure maximum participation, enjoyment, and safety for experienced drivers and novices alike. We have many options tailored to suit your requirements and budget.

Our **Private Party Packages** include a variety of racing formats that are designed to accommodate groups ranging from 8 to 24 drivers. Only members of your event will be on track during your races, although other groups may be in the facility at the same time. All of our Private Party Package prices include tax, helmet liners and helmets, making the price you see the price you pay.

**Exclusive Events** are designed for large groups, needing use of the entire facility during your event. Multiple event formats, which have been perfected by our staff over the past 12 years, are offered at no additional charge. We are happy to help you select a format that best suits your groups needs. All Exclusive Event prices are quoted on a per case basis. Every lap completed at ProKART is recorded by our state-of-the-art timing and scoring system. Your guests will receive a detailed record of his or her performance after each driving session.

## Customizable Exclusive Events for groups of 20 or more

### Exclusive Practice

This format works great for groups looking for a less competitive get together. Your time will be used to run multiple time trial style races. Your guests can also race as often or as little as they choose. All a driver needs to do to enter a time trial is check into the next available race with one of our staff members. Depending on length, anywhere from 6 to 10 time trial sessions can fit into a single hour of track time.

This option is a great choice if your group will not be arriving at the same time. We are more than happy to brief any late arrivals once they are ready to join the event.

### Heats Meet

Here is where the competition turns up a notch. After a group briefing and instruction meeting, drivers will be assigned into two practice sessions to give everybody a chance to get acclimated to the track and karts. Then the racing begins! Drivers will race in elimination heats and must place well enough in each of these heats in order to advance to the next round. The field will be narrowed down to the final drivers who will compete for the title of "Event Champion".

The Number of heats and race length are flexible and will be adjusted to best fit your group and the amount of time you choose. We can also design consolation brackets in order to keep everybody involved longer throughout the event.

### Team Race Challenge

Our most popular team building option, the Team Race is the ultimate exercise in working together to obtain a common goal; TO WIN! All drivers will first take part in 2 individual practice sessions. Then, drivers will be grouped into teams to compete in a non-stop action packed relay race. All teams will be required to make a minimum number of timed pit stops, in which they will change drivers and rejoin the race. The teams themselves must determine their own pit strategies of when to pit, as well as their driver order. They must also work together to communicate throughout the race in order to adjust their strategy based on their position in the race.

Teams can be predetermined by you, but we suggest that you allow our experienced staff separate the teams to provide the most competitive racing possible. Team managers can also be assigned to teams to include non-racing guests. All drivers will receive individualized lap time reports for practice and a single team report for the race.

**These events require a minimum two hour track rental. Cost of the event is based on the date, time and length of the event. Please call and speak with one of our Managers or Event Planners for a personalized quote.**
